

# Rising Grade 5 Summer Packet

The problems in this packet are designed to help you review topics from previous mathematics courses that are essential to your success in grade 5. You are expected to bring this completed packet to class on the first day of school. In addition, this packet will count as part of your first-quarter grade. Upon returning, you will be ASSESSED on the content of this packet. All contents outlined in the packet are grade 4 objectives. Neatly SHOW YOUR WORK!

## Addition, Subtraction, Patterns, and Graphs

1. Subtract. Check by adding.

**b.** Now, use the exact prices (not rounded prices). Mrs. Wood buys the items listed above and pays with \$30. What is her change?

3. *Estimate* the cost of buying five notebooks for \$0.87 each and two pencil cases for \$1.24 each.
